

PROPERTY WORKS

Commercial Building Works
Insurance Policy

2019

PropertyWorks is a specially designed product for commercial property owners who are renovating, refurbishing or extending their properties; where the works involved are too extensive for standard commercial property insurance providers.

By choosing PropertyWorks, you will be able to provide your clients with one seamless policy for the existing structure, the contract works, the contents and the property owners liability exposures for the period of the works. The policy can be written in the joint names of the property owner and contractor and is designed to fit the requirements of standard JCT contracts.
